

# Business Endorsement the American Anti-Corruption Act

Our corrupt political and broken electoral systems are preventing our elected officials from adequately representing their constituents. When elections are neither fair nor competitive, when donors are secret and unaccounted for, and when lobbyists have undue access to our representatives - the democratic process at all levels of government is weakened.

Therefore, the following businesses hereby endorse the provisions of the American Anti-Corruption Act by adding their names to a public list of endorsing institutions.
